

Knox Community 
HOSPITAL SM

One Team United in Caring

Our Mission

Springwater Drive, Mount Vernon, Ohio

Letter to the Community

Bruce White,
Chief Executive Officer,
Knox Community Hospital

"One team, united in caring."

This is the guiding belief of Knox Community Hospital, and one you will see demonstrated on every page of this special community report. Most importantly, one in which you will experience when you're in need of our services.

We want you to be aware of what an exceptional healthcare advantage you have right here in your own back yard—a hospital that cares about its community.

Meeting the needs of our community is not achieved by one employee rather it is achieved through a group of dedicated and caring professionals. This dedication to providing compassionate healthcare from our medical staff, Board of Trustees, employees and volunteers touches many lives and makes our community a better place.

We also want you to know the commitment of your friends, neighbors and family members who form our team of caregivers. They are what make this facility not only a strong part of your community, but also a vital community in itself.

What unites us, and connects the hospital to the community? Our responsibility to you and our community. By redefining our Mission, Vision and Values, it has allowed all of us to strengthen our commitment to you.

Welcome to Knox Community Hospital. Where the health of our community is a reflection of the way we live our mission, pursue our vision and embrace our values.

A handwritten signature in dark ink, appearing to read 'B. White', written in a cursive style.

Bruce White
Chief Executive Officer

To provide compassionate healthcare service that exceeds the expectations of our community.

Our Mission

This is Knox Community Hospital — a state-of-the-art, compassionate, involved organization of, by and for the people in our community.

Knox Community Hospital
Main Campus

***Knox Community Hospital** is a non-profit, tax-exempt hospital dedicated to serving its community with state-of-the-art facilities and a wide variety of healthcare services. As Knox County's fourth largest employer, we're solid and strong today, and will be here for many years to come—because we're very serious about meeting our responsibilities to the community we serve.*

***Knox Medical Pavilion** was founded from a community-wide dialogue to discover the most pressing needs and concerns of our residents. This resulted in a greatly expanded range of resources and physician practices to better meet the needs of the community. For example, the Center for Cancer Care provides radiation therapy and cancer treatments locally that people would otherwise have to drive miles to receive, and our Women's Health Center provides a wide range of personalized services unique to women's healthcare needs.*

Knox Medical
Pavilion

Compassion

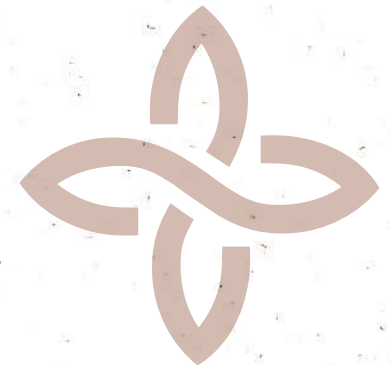

Our mission to exceed your expectations for compassionate care is achieved through people. People with extraordinary skills, people with a gift for leadership, people trained to provide exemplary service, people who are our friends and neighbors. We all are dedicated to a Service Excellence Program – founded on a hospital-wide commitment statement embraced by all employees and endorsed by our Board of Trustees which reads: “As One Team United in Caring, we commit to providing the highest degree of quality care, treating each person the way he or she wishes to be treated.”

The program’s purpose is geared toward creating a culture of service excellence for our organization, and inspiring us all to exceed your expectations by doing what we promise, and aspiring to one overall goal . . . providing compassionate healthcare that exceeds your expectation.

This investment in our workforce shows our commitment to each patient’s satisfaction with services they receive from Knox Community Hospital.

As One Team United in Caring, we commit to providing the highest degree of quality care, treating each person the way he or she wishes to be treated.

Our Vision

Foundation Park, Mount Vernon, Ohio

Excellence

Quality of Life Award presented to
The Foundation for Knox
Community Hospital

A great community deserves excellence in healthcare. Our vision to be a hospital nationally recognized for excellence in quality, service and growth is not intended to be for recognition itself. It means that we strive to be nationally recognized for being the finest community hospital we can be. It means that we always place a higher value on your recognition, your approval, your suggestions and comments. These are the foundation of the services and programs we offer today, and the ones we are developing for tomorrow.

Last year, we were recognized nationally; but equally important, we were recognized from our community:

National Winner of the 2009 Compass Award presented by the Press Ganey organization to our Emergency Department recognizing us as a facility that showed the most improvement in patient satisfaction over a 2 year period. This selection was made among 7,000 healthcare facilities, including 40% of all U.S. hospitals.

Quality of Life Award given by the Knox County Chamber of Commerce to a non-profit member whose work enriches the lives of Knox County residents. The Foundation for Knox Community Hospital was bestowed this award for raising \$360,000 to purchase a Digital Mammography unit.

2009 Employer of the Year Award given by New Hope Industries and honors businesses that provide meaningful job training and development for persons with disabilities. Knox Community Hospital offers these opportunities to those who receive supported employment service from New Hope Industries enabling them to gain self-sufficiency, independence and ability to give back to the community.

National Winner of the 2009
Compass Award presented
by the Press Ganey organization
to our Emergency Department

*To be recognized for excellence in quality, service,
and growth achieved through dedicated
people and a strong financial position.*

Our Vision

A continuing commitment to our vision and our community shows in the services we added in 2008:

The Center for Wound Healing
Hyperbaric oxygen therapy

*Our **Center for Wound Healing** is the only facility within seven counties to offer comprehensive, individualized care for patients with chronic, non-healing wounds caused by diabetes, circulatory diseases, radiation burns, or other factors. A compassionate, highly-skilled team of doctors and nurses work with the newest technology to treat such wounds. Hyperbaric oxygen therapy — which greatly strengthens the healing process with pure oxygen at greater than normal atmospheric pressures — is one of them. Other services available are debridement, transcutaneous oxygen monitoring, specialized dressings and wraps, bio-engineered tissue substitutes, and platelet growth technologies.*

*A recently introduced **Hospitalist** program allows our primary care physicians to spend more time seeing patients in their offices. A Hospitalist is a doctor who only practices in the hospital, and is there to help the primary care physicians. If you need to be admitted to our hospital, your doctor may work with a Hospitalist to give you the best attention and medical care possible. A Hospitalist keeps a close eye on you as long as you are in the hospital and is readily available to answer any questions you and your family might have. This is one of the newest and most rapidly growing forms of medical care in the United States—and it's right here at Knox Community Hospital.*

Growth in Services

Knox Medical Pavilion
Registration

Digital Mammography services are another of the newest technologies we offer our community. By investing in a new and powerful digital mammography system, Knox Community Hospital has advanced the fight against breast cancer. It is utilized in addition to our other breast cancer prevention screening processes, and gives our referring physicians extremely accurate images to use in diagnosis. Due to its digital nature, images are easier to store and transmit because both can be done electronically. Patients will also experience shorter exam times, faster results and fewer callbacks with this state-of-the-art equipment. This is one of the many services you'll find in the Knox Medical Pavilion and perfectly complements our full line of women's health services.

We won't stop here, because our dedication to our vision for our community never stops. "... excellence in quality, service and growth through dedicated people and a strong financial position."

This is our vision. This is our promise.

This is our vision. This is our promise.

Our Values

Green Valley Road, Mount Vernon, Ohio

Teamwork

When our employees are not here, they are often giving their time and talents to others who need it.

The embodiment of our commitment to the fundamental values of "integrity, compassion, teamwork and excellence" is our employees. They are your friends, neighbors, your own family members and perhaps even you. They are behind the smile that greets every visitor, the kind words that comfort every patient, and the tireless workers who keep our hospital running smoothly.

And while these Values are a stated goal, joining our Mission and Vision, the people who turn it into reality do not make it happen just because it's written down. They achieve it because that is the kind of people they are. When our employees are not here, they are often giving their time and talents to others who need it.

Outside Knox Community Hospital, our employees give back to their very own communities in which they live. The majority contribute by involvement in their church, followed by their schools, community organizations, and philanthropic groups.

You'll find them coaching youth teams, working for food pantries and Habitat for Humanity, teaching Red Cross classes, raising funds for our firefighters, advising 4-H members, leading Girl and Boy Scout troops, supporting Relay for Life, singing with the Sweet Adelines, caring for the elderly, and more.

When you come to Knox Community Hospital you are among people who care about you.

We value a culture that requires and promotes integrity, compassion, teamwork, and excellence in delivering healthcare to our community.

Our Values

Leadership is demonstrated at every level at Knox Community Hospital. Here, serving through caring is a way of life. These Leadership teams are proud to serve as partners in meeting the healthcare needs of our community.

The Executive Team manages the day-to-day function of the hospital from staffing to fiscal responsibility, and actively encourages the culture of teamwork and commitment that runs through the organization. Their consistent leadership and staff support are the foundation of our focus on bringing the best care possible to our community. They listen, learn, help set achievable goals and move us forward into the future.

The Medical Staff is the committed group responsible for the continuing excellence of our physician staff and patient care. This esteemed assembly of physicians not only oversees the quality of care and physician performance, they also inspire by example. They all routinely continue their own education in the newest medical advancements, and share their knowledge and skill with staff and the community. In short, they exemplify the hospital's primary goal of care that exceeds expectations.

Our Leadership

The Board of Trustees consist of dedicated and invaluable community leaders, and they are the stewards of the policies that best serve the hospital and the public, both now and in the foreseeable future. They continually weigh and adjust the services that best honor our commitment to the community in these changing and challenging times.

Front, from left: Deborah A. Urton; L. Keith Plocki, MD; Dolores Hecht, LSW; Sam Barone; Inge Krajencki; **Back, from left:** Kenneth R. Reynolds, CPA; Kenneth H. Doolittle, II, MD; Joan E. Our Commitment

Mount Vernon, Ohio

Investment in our Future

As a not-for-profit health care organization, we are committed to meeting our patients' growing health care needs both today and into the future. This commitment is demonstrated in the information that follows. In 2008, we reinvested \$3.7 million in your hospital with capital purchases made in equipment, information technology and facility improvements.

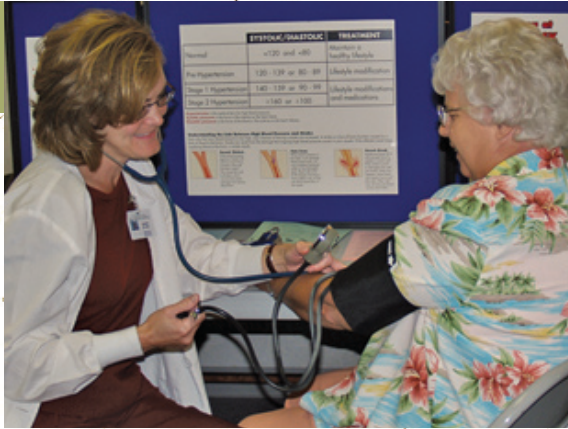

Investment in Our Future: \$3,715,025.76

Our commitment to you, to your children and to their children... investment in the future of our community's health begins now.

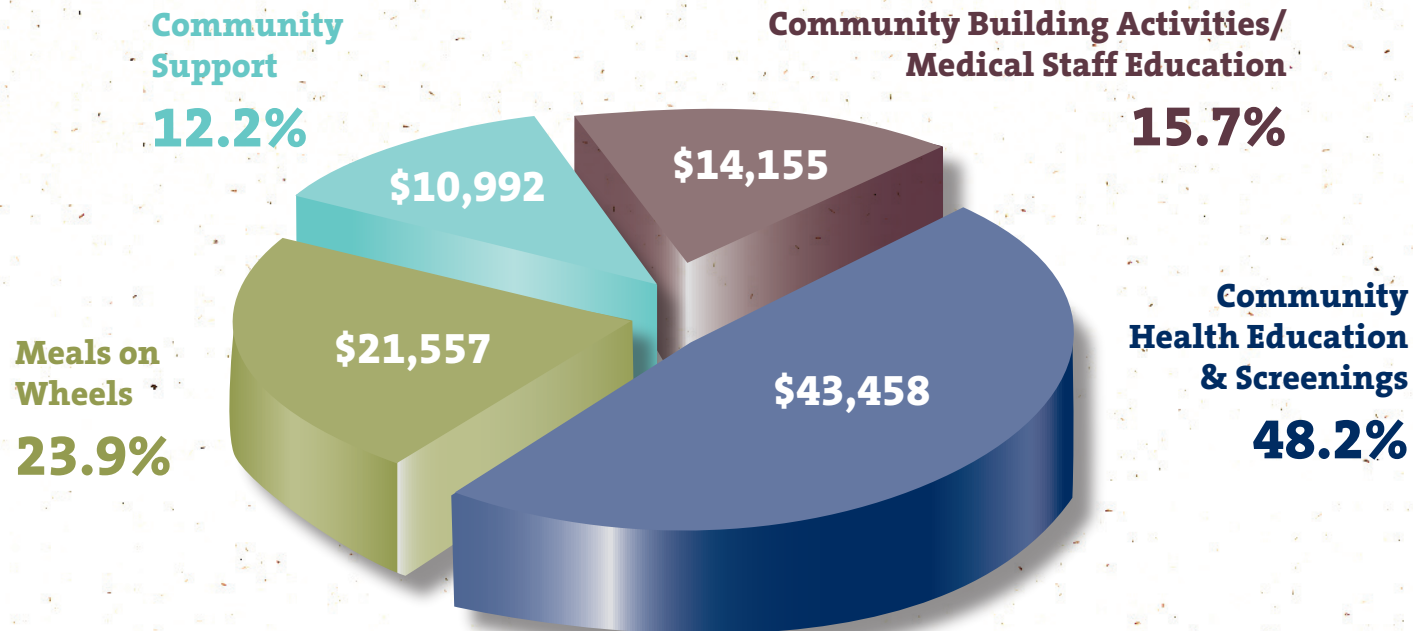

Community Benefit

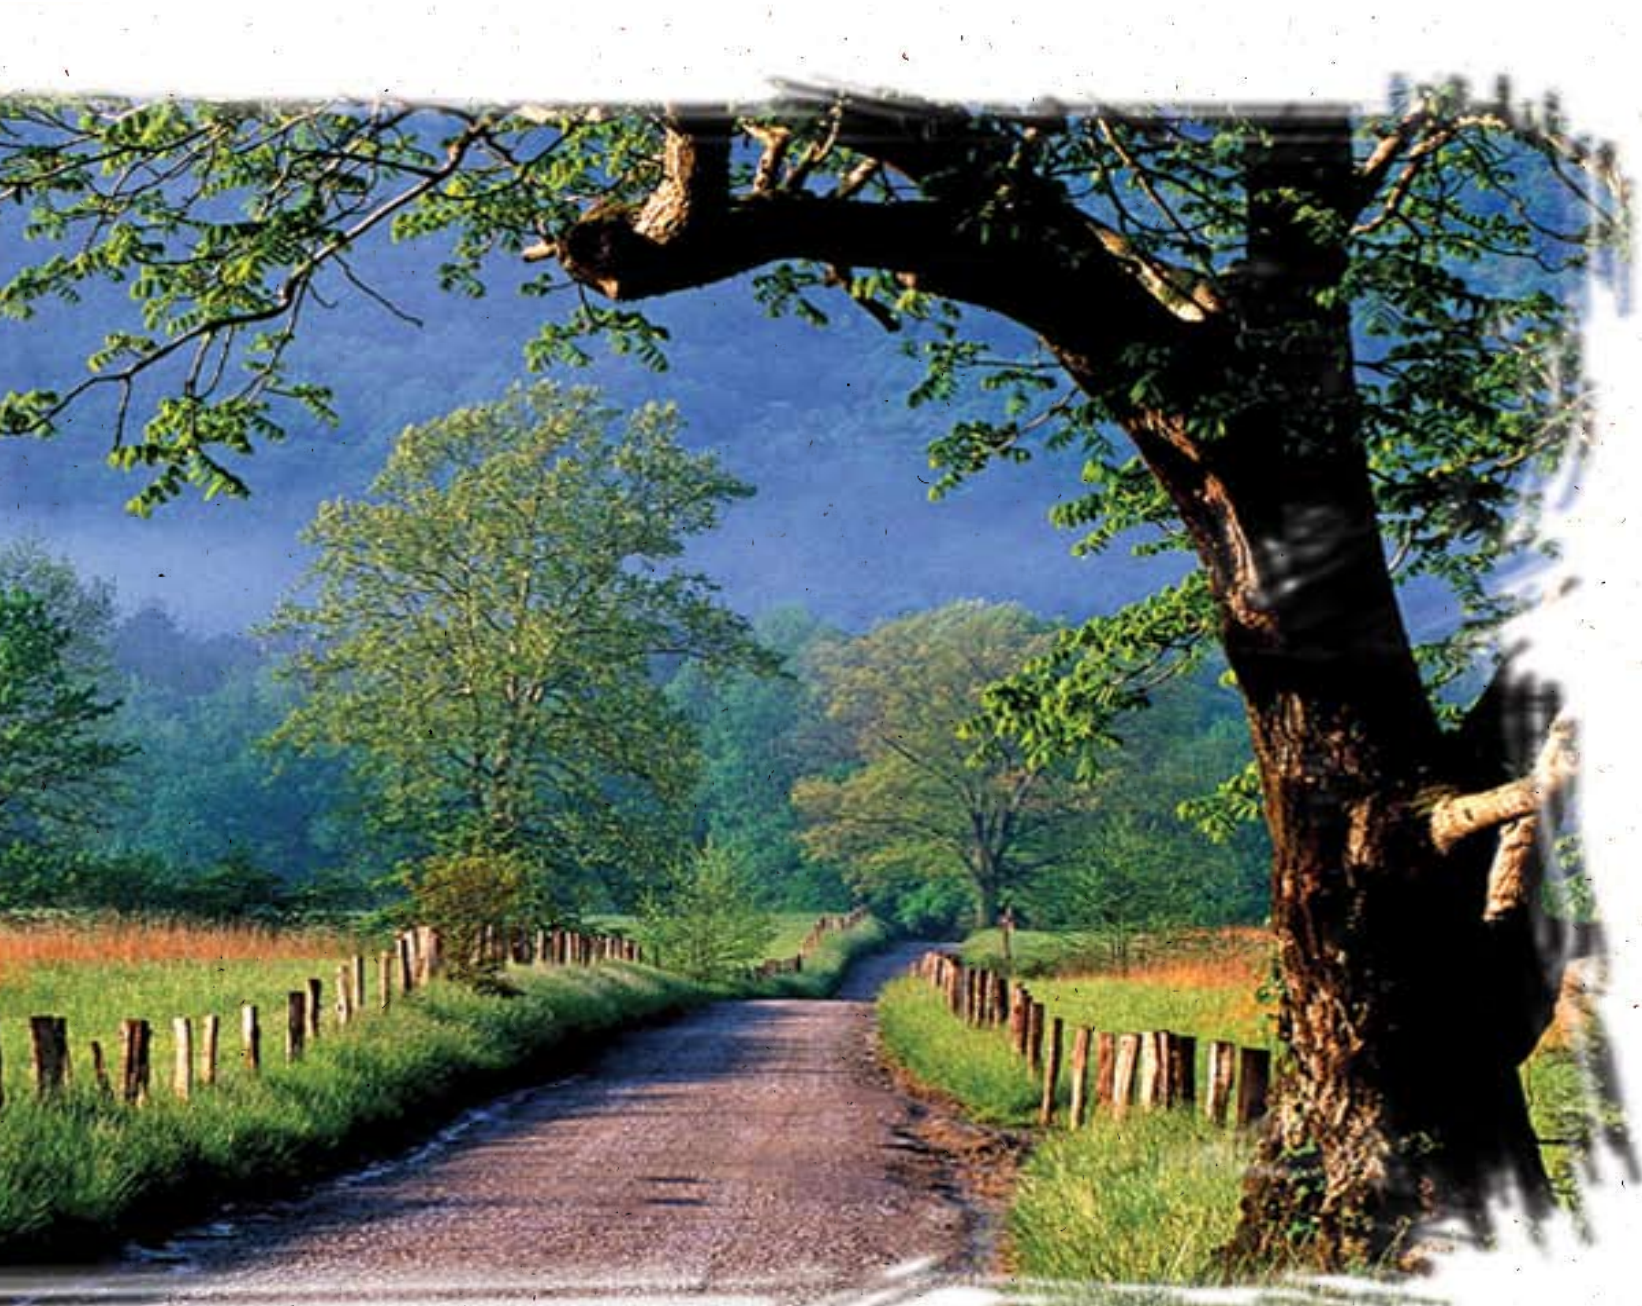

Free Blood Pressure Checks

Our community benefit program is designed to improve the health of our community through education, screenings and support. They are integral to our Mission of providing compassionate healthcare services. Do these programs make a difference in the lives of the people we care for? Just ask the teen who chose not to drink and drive, the man who had a positive result from a colon cancer screening, or the senior citizen unable to shop and prepare meals who receives a fresh, hot lunch delivered to her door every day. Each year we search for new ways to provide information, care and support that improves the well being of our community.

Total Community Benefit Dollars: \$90,162

In 2008, through the generosity of our donors, The Foundation for Knox Community Hospital made gifts totaling \$360,000 to Knox Community Hospital. The largest gift, in the history of the Foundation to Knox Community Hospital, was directed to the purchase of a Digital Mammography machine.

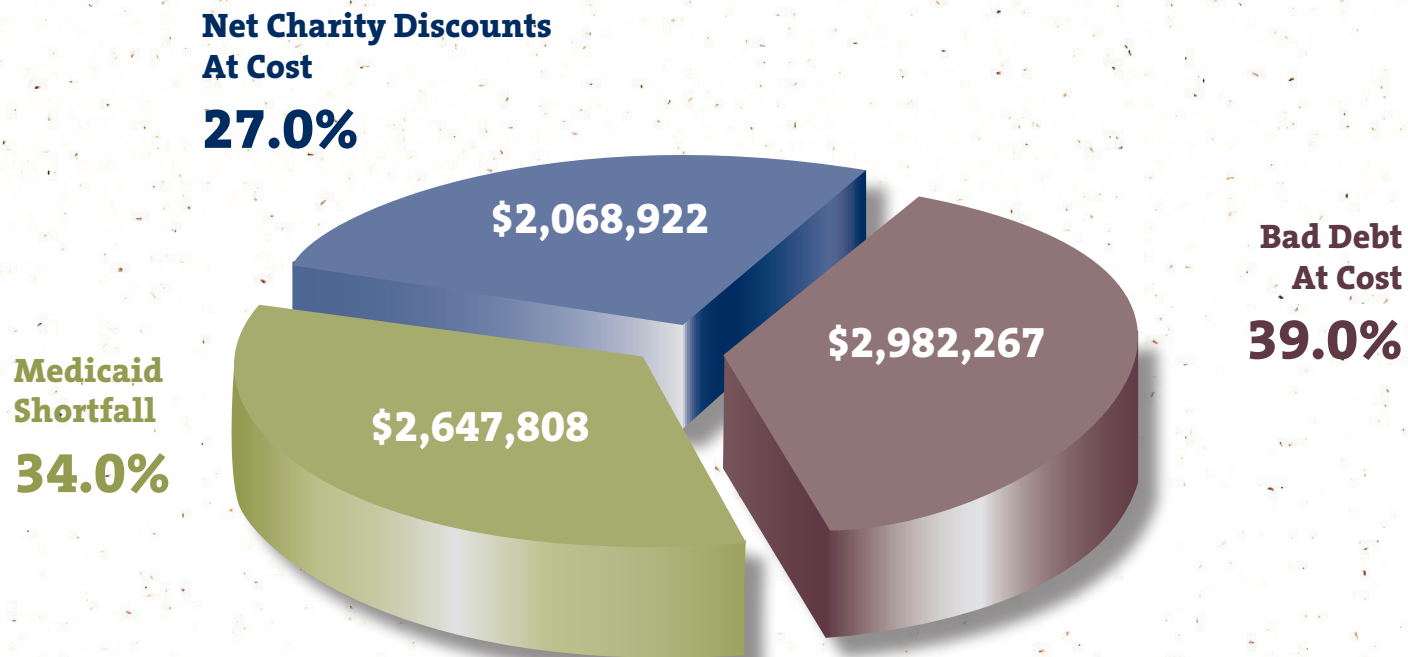

Beyond equipment, The Foundation is partnering with the hospital to cultivate the caregivers of tomorrow to ensure that the extraordinary care you have come to expect will always be here for you and your loved ones. The Foundation offers scholarships to senior high school students who participate in the Knox Community Hospital's Future Nurse's Club.

*The Foundation for Knox Community Hospital,
The Road To Our Community's Good Health.*

Our Commitment

Knox Community Hospital is committed to providing health care to everyone in need, regardless of their ability to pay. We offer "charity care", or free care, to uninsured patients who qualify for our program. Financial counselors are available to assist patients with their bills as well as applying for other federal, state and local programs including Medicare, Medicaid, and pharmaceutical assistance. In 2008, we provided a total of \$7.6 million in assistance through our charity care program, those who received Medicaid assistance and those who couldn't pay at all.

Total Mission Driven Outcomes: \$7,698,997

*Whether you have participated
in one of our special events,
became a sponsor or annual giving
donor, you are making a difference
in the lives of those who live, work
or travel to Knox County.*

Moving Forward Together

The Foundation

Honey Run, Mount Vernon, Ohio

Chairman's Letter

Charlie Brenneman
Chairman, The Foundation
for Knox Community Hospital

Dear Friends,

The Foundation for Knox Community Hospital believes much of the strength of a community lies in having excellent health care close to home, with neighbors caring for neighbors. We continue to evolve into an active and dedicated fund development entity that supports a first-class community hospital.

I believe The Foundation's dedication to the community and the hospital was proven this year. Back in January, 2008, the Distribution Committee headed by Ian Watson brought to the Board a goal to raise \$360,000 for a Digital Mammography machine for the Women's Center located in the Center for Cancer Care at Knox Community Hospital. This was a goal that was very close to my heart as my mother is a breast cancer survivor.

The campaign received a kick-start when Karen Buchwald Wright, President and CEO of Ariel Corporation made a commitment with a challenge of a \$100,000 match. The remaining funds were raised through

the generosity of charitable individuals and corporations in our community, foundations and trustees who supported our many fund drives and special events, highlighted by the annual Charity Golf Classic, Fat Tuesday Celebration, Five Celebrity Chef Dinners and our Keep Her in the Picture Black Tie Gala. It was my proud honor to turn over a check for \$360,000, on behalf of all our donors, to Bruce White, Chief Executive Officer of Knox Community Hospital at the close of the Keep Her in the Picture Campaign.

In the first three months of operation, the Digital Mammography machine took over 700 mammograms.

In 2009, The Foundation for Knox Community Hospital looks forward to continuing our journey toward a healthier tomorrow – for the hospital, its patients, and the community we serve. With renewed focus and resolve, we will diligently steward gifts to advance the hospital's critical work.

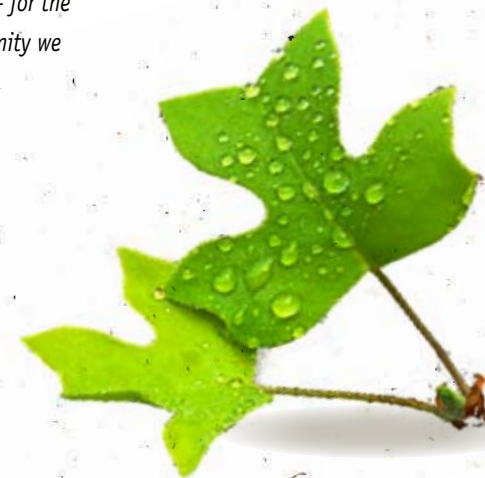

On behalf of the Board of Directors of The Foundation for Knox Community Hospital, I extend our sincere gratitude to our invaluable friends and donors who have contributed to The Foundation's success.

Sincerely,

A handwritten signature in black ink that reads "Charlie Brenneman".

Charlie Brenneman
Chairman, the Foundation
for Knox Community Hospital

*Gratitude is the fairest blossom
which springs from the soul. ~ Henry Ward Beacher*

2008 Annual Report – The Foundation for Knox Community Hospital

The philanthropic nature of our community has enriched the services and medical expertise offered by Knox Community Hospital allowing us to offer the highest quality healthcare for our community. The generosity of our neighbors also ensures that access to vital health and wellness programs will continue for those less fortunate in our community.

It is heartening to know that in the midst of a difficult economic climate our donors continue to help us advance the mission of the hospital. We have seen the difference that giving at all levels can make and are humbled by the compassion and generosity of our philanthropic community.

If you have made a gift to The Foundation for Knox Community Hospital recently, you have demonstrated that you believe in what we do. Have you considered ways to continue your support that can carry on beyond your lifetime? You can include The Foundation for Knox Community Hospital in your estate plan.

Examples include:

- *Bequests in your will*
- *Charitable gift Annuities*
- *Charitable Remainder Trusts*

Our Mission:

The mission of The Foundation for Knox Community Hospital is to establish and maintain relationships that generate philanthropic support to enhance Knox Community Hospital's ability as a community hospital to fulfill its mission.

Our Vision:

The Foundation believes much of the strength of a community lies in having excellent healthcare close to home, with neighbors caring for neighbors. We will continue to evolve into an active and dedicated fund development entity that supports a first-class community hospital. We will work together with the hospital to serve as one set of eyes and ears to identify community health and wellness needs.

Our Values:

The Foundation for Knox Community Hospital commits to support the spirit, goals and mission of the hospital through the work and involvement in Foundation activities. We commit to those associated with The Foundation to define the core values, what they believe in and stand for. Our guiding principles are: Stewardship, Integrity, Innovation, Teamwork and Community Centered.

One Team United in Caring

Our Mission

To provide compassionate healthcare service that exceeds the expectations of our community.

Our Vision

To be recognized for excellence in quality, service, and growth achieved through dedicated people and a strong financial position.

Our Values

We value a culture that requires and promotes integrity, compassion, teamwork, and excellence in delivering healthcare to our community.

*The health of our community is a reflection
of the way we live our mission, pursue our vision
and embrace our values.* ~ Bruce White, Chief Executive Officer

*Demonstrating our commitment to our community
and to our environment, this brochure has been
produced by using recycled paper and local
resources for photography, design and printing.*
